# HotShot II XL

## HOTSHOT II XL OVEN

### Dimensions

38"(w) x 33.5"(h) x 75"(d) – 55 cubic feet

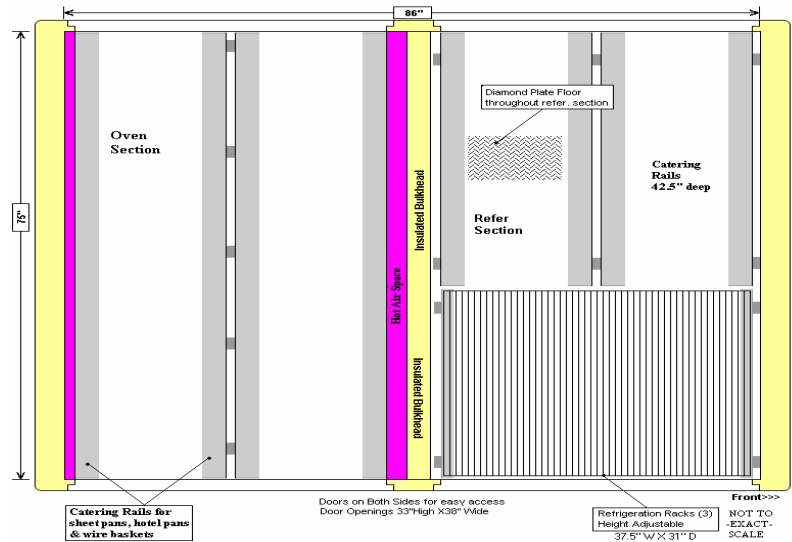

The stainless steel convection holding oven has a two-door access pass-through interior that is thermostatically controlled to maintain temperatures in excess of 185° F. Heating is provided by a ceiling-mounted blower system, coupled with a series of integrated coils, and stainless steel braided hoses, that originate from the vehicle's existing cooling system.

## HOTSHOT II XL REFRIGERATOR

### Dimensions

43"(w) x 36.5"(h) x 75"(d) – 72 cubic feet

The refrigerator has a two-door access pass-through interior that is thermostatically controlled to maintain temperatures of 34° F, or lower if desired. Drains are located on the floor for easy cleaning. Cooling is provided by an over-the-road refrigeration system with an engine-mounted compressor, a skirt-mounted condensor, and dual 10" fan evaporators.

# ADDITIONAL VARIATIONS

## HotShot II XL ¾ Refrigerator, ¼ Oven

## HotShot II XL All-Freezer
